Ankita Das

Jharsuguda, Odisha | ankitadas8818@gmail.com | Portfolio | github.com/ank-8818 | Pattern Theory Shop

Summary

Mathematics M.Sc. graduate from NIT Rourkela who builds responsive, interactive websites with HTML, CSS and JavaScript, and designs their illustrations, patterns and branding in Adobe Illustrator. Runs a digital pattern shop on Gumroad. Seeking an entry-level front-end / web developer role.

Web Projects

Bloom & Co. — Salon & Spa Website | *HTML, CSS, JavaScript* Oct 2026 Live | GitHub

- Built a multi-step booking flow in JavaScript: each bundle links to its own booking slot, and the available time slots recalculate from the selected service's duration and the salon's opening and closing hours. Includes form validation and a confirmation screen.
- Rendered services and bundles from JavaScript data; added an FAQ accordion; responsive on mobile and desktop.
- Designed the brand and layout details: logo, color palette, leaf-pattern hero background, zig-zag featured section, and a Mondrian-inspired grid for the bundles section.

Which Star Are You? — Interactive Quiz | *HTML, CSS, JavaScript* Sept 2026 Live | GitHub

- Built a six-question quiz with DOM manipulation: screens render dynamically, answers are tallied in a score object, scores are sorted to pick the result, and ties resolve by array order.
- Added a sound for each answer option, toggle-able science facts, and a custom star-shaped cursor on desktop.

Pulp & Peel — Juice Brand Website | *HTML, CSS, Bootstrap, JavaScript* Sept 2026 Live | GitHub

- Responsive site for a fictional brand, built with Bootstrap components, with JavaScript email validation on the form.

Independent Work

Pattern Theory Shop — Founder & Designer 29 Aug 2026 – present
Digital surface pattern designs *Gumroad*

- Designed and published *Citrus Botanica*, a six-pattern collection (orange, lemon and lime repeats plus three coordinating floral patterns), and a free leaf pattern.
- Prepared each design for real use: seamless tiles, 300 ppi PNG, EPS and SVG files, with transparent and colored backgrounds and isolated elements.
- Made product mockups and promote the shop on Pinterest and Instagram, including a Reel showing the pattern-making process in Illustrator.
- Illustrated a zodiac character series (Aries, Taurus) and a Queen of Diamonds card design.

Self-directed study 2025 – 2026
CSIR NET preparation; web development and illustration

- Prepared for the CSIR NET examination while teaching myself front-end development (HTML, CSS, JavaScript, Bootstrap, Git) and vector illustration.

Education

National Institute of Technology (NIT) Rourkela 2020 – 2025
Integrated B.Sc. + M.Sc. in Mathematics *Rourkela, Odisha*

- B.Sc. CGPA: 7.10 / 10 | M.Sc. CGPA: 6.60 / 10 | First Division
- **M.Sc. thesis:** Recast the Black–Scholes equation as a Schrödinger-type Hamiltonian, discretized it with finite differences, and used Python (NumPy, SciPy, Qiskit) to simulate a variational algorithm for the eigenvalues of non-Hermitian matrices.

D.A.V. Public School 2018 – 2020
Senior Secondary (Class XII, Science) *Jharsuguda, Odisha*
Class XII: 96.4% (2020) | Class X: 96.8% (2018)

Skills

Web: HTML5, CSS3, JavaScript (DOM, events, form validation), Bootstrap, responsive design
Design: Adobe Illustrator, seamless patterns, logo and color palette design, character illustration
Tools: Git, GitHub, GitHub Pages, LaTeX (Overleaf)
Other: Python (basic; used in M.Sc. thesis)
Currently learning: Node.js, Express (building a blog project), Figma, Typography
